Professional Summary

B.Tech Computer Science student with hands-on experience building full-stack web applications using React, Node.js, and MongoDB. Skilled in AI-assisted development, REST API design, and responsive UI. Seeking a Software Development Intern role to apply problem-solving skills and deliver production-quality code.

Education

Bachelor of Technology in Computer Science and Engineering, ABC Institute of Technology, Uttar Pradesh

Expected Graduation: June 2027 | CGPA: 8.2/10

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming

Technical Skills

Languages: Python, JavaScript, Java, C++, SQL, HTML5, CSS3

Frameworks and Libraries: React.js, Node.js, Express.js, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL, Firebase

Tools and Platforms: Git, GitHub, VS Code, Postman, Vercel, Netlify, Claude, ChatGPT

Concepts: REST APIs, Authentication (JWT), Responsive Design, Agile, Prompt Engineering

Projects

Personal Portfolio Website | React, Tailwind CSS, Vercel

- Designed and deployed a responsive portfolio website that showcases 5+ projects, achieving a Lighthouse performance score of 95+.
- Reduced page load time by 40% through image optimization and lazy loading.
- Used AI-assisted development to speed up UI prototyping and debugging.

Task Management Web App | React, Node.js, Express, MongoDB

- Built a full-stack task manager with user authentication (JWT), CRUD operations, and category filters for 100+ test users.
- Developed 12 RESTful API endpoints and tested them with Postman.
- Implemented a mobile-first layout that works across all major screen sizes.

Resume Analyzer Tool | Python, Flask, NLP

- Created a tool that extracts keywords from resumes and matches them against job descriptions, producing a match percentage.
- Processed PDF and DOCX files using Python libraries, with 90% parsing accuracy on a sample set of 50 resumes.

Experience

Web Development Intern, XYZ Technologies (Remote) | June 2026 - August 2026

- Developed 6 reusable React components, reducing duplicated code by 30%.
- Fixed 25+ UI bugs and collaborated with a team of 4 developers using Git and GitHub pull requests.
- Integrated third-party REST APIs to display live data on the company dashboard.

Achievements and Certifications

- Solved 300+ problems on LeetCode and GeeksforGeeks.
- Participated in Smart India Hackathon 2025 (college-level finalist).
- Completed Full Stack Web Development certification on Coursera (2025).
- Core member of the college coding club, organizing 3 technical workshops.
